

Hospitals and Surgery Centers operate very differently. They require completely different models, people, and processes. For an ASC to be profitable, its operations demand speed, efficiency, and constantly doing all the little things right.

Tech-enabled expert services:

Operations

Financial & clinical reporting to understand the providers, procedures, and supplies affecting P&L, including Annual Budget, Revenue Cycle, Payer Trends, Expense Management, Regulatory Compliance, Staffing Performance, Case-Costing, Room Turnover, On-time starts, Patient Quality Statistics, and more.

Staffing

MedHQ's Talent Portal connects ASCs with a nationwide network of recruiting specialists to fill any position, including contract, contract-to-hire, and direct hire.

HR

Benefits management, payroll, time tracking, compensation analysis, applicant management, onboarding, culture and wellness, discipline and termination, handbooks and forms, and more.

Accounting

Full treasury services gives financial insight with annual budgets, net medical revenue analysis, case costing, patient accounting, compliance audits, board reports, transactions, taxes, and more.

Revenue Cycle & Payer Contracting

Payer contracting specialists ensure correct coding to avoid under/over payment, reduce claims denials, ensure highest reimbursement possible for each case, convenient payment options for patients, and collect the majority of fees in under 30 days.

Outpatient Network Growth

Our consultants can help build your outpatient network on a project basis with support that includes feasibility reports, JV partnership development and syndication, project plan development and implementation, licensing and accreditation, payer contracting, operations and opening preparation, annual budgeting.

ASKING ASC LEADERS TO OPERATE OUTSIDE THEIR SKILL SET INTRODUCES RISK.

MedHQ's outpatient experts and technology surrounds your ASC team like hospital c-suite surrounds its CEO.

What an outsourced partner like medHQ provides:

Detailed, timely reporting on costs

Comparative data on provider, procedure, and supply costs

Mitigated risk for HR issues and complaints

Improved staff recruitment & retention strategies

Departments of experts that mirror the network hospitals leaders rely on
